

In the forward of Eddie Chumney's; **Restoring the Two Houses of Israel**, is the following prayer that is still being prayed for today by the Jews and that prayer is this:

"Blow the great shofar for our freedom, and lift up a banner to gather our exiles, and gather us from the four corners of the earth. Blessed art though oh *Lord*, who gathers the banished of thy people, Israel."

Israel trip was June 21, 2010 ---July 13, 2010.

The lord shared these things with me as to what He was about to do through us as we traveled and sounded the shofars over Israel.

1. To declare the Lord's ROAR over Israel for her protection – Archangels to do battle against decrees made by those who have spewed forth curses against her.
2. To call from Mt. Ephraim the scattered of Israel for their return.
3. To usher in the presence of Messiah through visions and dreams, to declare unity between the Fig Tree (Israel) and the Vine (the church).
4. To thwart the plans of the enemy to start a pre-Armageddon, preventing the fruit of the great harvest which is about to happen.
5. For Israel to prepare herself as the Bride.
6. To re-establish (strengthen) the connection between U.S. and Israel, so that we will not be aborted.
7. To declare open heavens again over Israel, and for the destruction of the image of jealousy that has been in the land for too long.
8. For Israel's total restoration back to the covenant made with father Abraham, and for the return of Christ Jesus.

- Ezekiel 33:3 Assignment -

Subject: Assignment Israel

Here is the update so far of the assignment

The plane trip to Israel was uneventful except for the many times I was requested to blow the shofar in the airport and on the airplane at the request of the stewardess and pilots. As we landed in Tel Aviv, we collected our baggage after exchanging our money then headed outside to find a shuttle to Jerusalem. We had an opportunity to speak with the local people on the bus to our guest house. It was fun learning Hebrew greetings and sharing our love for them and for Israel.

Our Driver; Uri, had shared how he and his family celebrated Sabbath every Friday evening. He said the whole family would wait until he got home, no matter how late and they would break bread and dip it in salt, and then they would have wine celebrating with family while reading scriptures and singing songs. Sounds like Yeshua to me.

Day one:

I woke up early, 5 am (Israel time) to pray. I am having some serious jet lag. Our host here in Jerusalem at the Korean House of Prayer; Mordecai, spent the morning with Harvey and I finding a local grocery store so that we may purchase odds and ends if needed. We came back to the guest house and slept till 3 pm. After awakening from our much needed rest, we discussed the plans for Thurs. Adam a guest from Wisconsin also is here and he is studying Hebrew and Arabic for translation purposes. He is a wealth of knowledge and you can not help but be drawn to his love for people. We will rest today for tomorrow starts the assignments.

Walked down to Domino's Pizza near one of the main roads and had a late dinner outside the pizzeria. After observing and conversing with the locals we walked down to the grocery store and picked up some water and food.

Tomorrow (Thursday), we will travel to the old city here in Jerusalem.

Note: we are trying to carry the shofar with us everywhere and sound it as we are led.

Day Two:

I woke up at 3 am due to the Islam call to early prayer. They blast this prayer all over and it really disturbs your spirit as well as your sleep. I will blow the shofar the next time.

Harvey and I took off to the Old City. With our shofars in hand and our bus ticket that Apostle Kim gave us before we left Michigan, we headed to the Jaffa Gate and then found ourselves in front of the Holy Sepulcher in the Arab quarter. We sounded the shofar there and then worked our way towards the West Wall after being stopped by a police officer who asked us to blow the shofar. We were very early and thought it would be nice to have breakfast. We found a nice little outdoor café and had a great breakfast before we headed to the Western Wall. We had earlier purchased some kepas for our head covering and then made our way to the Wailing Wall.

It was packed with Rabbis and their students as well as many bar mitzvah celebrations were taking place. We walked up close to the wall until my legs started to shake and I felt the presence of the Most High. It was here we made our stand and after prayer we waited until asked by someone to sound the shofars. What was really awesome was prior to entering into the Wailing Wall area, there were several IDF soldiers with their guns sitting down along the walk way. They asked us to sound the shofars so we did. Big grins and pleased hearts was the response.

As we waited on the Lord to sound the shofars at the Wailing Wall, two children came up to us and asked us to sound the shofars. Don't need to tell me twice. The sound was piercing and very loud. We became the center of attention and several youth and adults prompted us to sound the shofar a few more times. I then went to the wall and leaned my head against the ancient stones and started praying in the Holy Ghost. There was a man next to me praying in Hebrew and it sounded like what was coming out of me, go figure!

We continued to move around the gates of the city to include Mt Zion Gate and the Dung Gate. We sounded the shofars over the gates and any other place warranted by the Holy Spirit. We had no issues with any authorities today.

We spent the rest of the day looking around the area and then riding the bus back to French Hill where we are staying.

Tomorrow we will celebrate Shabbat with the Korean House of Prayer.

Love to you all, and blessings for all of you who are assisting with praying for us as well as finances.

Subject: Israel Report / Very important 06-28-10

Hey Team,

Shalom

Yesterday (Sunday), we were directed by a prophet in Be'er Sheva to go to the prayer mountain in a small little village of Ir Oust (city of water skins), located near the very south of Israel. She had for us to pray Isaiah 35 and Isaiah 51:3 over the southern gate of Israel. The little town is located near the Dead Sea along route 90. We had to climb up the mountain and then read the scriptures as well as sound the shofar seven times in all direction scattering the enemy. Just received confirmation this Monday morning that five governors near the Gulf of Mexico agreed to have a day of fasting and praying yesterday for the stopping of the oil spill. Water Skin? We went to do one thing and the Lord is doing also another.

We spent the rest of the day working our way up HWY 90 and stopped to sound the shofar over the Dead Sea for resurrection life. We also drove by Massada and several other historical points of interest on our way back to Jerusalem.

Prophetess Annelore under the direction of the Holy Spirit laid hands on both Harvey and myself calling us the Two Swordsman of the Lord who were not here to evangelize but to declare the Lord's voice over all of Israel from the South to the North and from the East to the West.

She directed us to sound the shofar over Mt. Gerizim (Mountains of Ephraim) Jacob's Well, the city of Hebron, Vered Jericho, Meggido, and the gates of Jerusalem. Also to head to Tel Aviv and sound the shofar over the Sea again.

We will be back in Old City today to continue sounding His voice to the gates.

Hope is being restored here to the prayer warriors in the land because of our assignments, please stay in the battle and for those who do not have email ability but are prayer warriors please let them know what is happening.

What happens in the world directly effects what happens here, and what happens here directly effects the world.

My love and prayers are with you all.

In His eternal service,
Brother William Hodge

Subject: The Door of Hope the Valley of Achor

Shalom and good morning to you all,

This is huge! Prophetess Annalore has just spoken to us about the day. She confirmed so much word that the Lord has been speaking to me over the years to include Isaiah 43 (New Thing), she said the Lord is not interested in warming up old soup, revivals.

This is a new thing! She spoke to us what will happen as we go to Verred Jericho today the prophesy spoken out of HOSEA CHAPTER TWO!!!!!!! She said that the door of hope is there and that RESTORATION, RESTORATION, RESTORATION, will now happen. Of course I was immediately reminded of the song from Hosea 2 not only sung over us but read over us by Laurie and Floyd.

We are sounding His voice for this prophesy spoken of in Hosea chapter 2 to come forth. Please read out loud today in your prayer time as we are now preparing to make our way to Verred Jericho today (Tuesday the 29th). We will be speaking and sounding His voice over Jacobs well to come forth!!!!!! Spring ye oh deep wells of restoration and living water over your people Israel!!!!

Pray for continued favor with the military here. They must assist us with what we are to do on the rest of this journey.

Your prayers are being heard and answered so quickly. Keep sounding the shofars from America they are being heard here in the land of our inheritance.

In His eternal service,
Brother William Hodge

Subject: Mt. Ephraim assignment "THE RELEASE"

Shalom,

Weds., is scheduled to a trip to Mt. Ephraim where the well of Jacob is also located. Prophetess Annalore will be with us for this most important assignment yet. We must travel north and then go into some tough areas to get to the mountain. We are going to request a military escort to get to the top of the mountain to sound the shofars and **RELEASE you all!!!!!!!**

We will be leaving in the morning here and plan to spend the day on assignment. This by far will be the assignment most waited for for all of us.

Please keep our finances in prayer as it is very expensive here and gas is three times the cost than back home in the States. we still have several 100 more miles to travel while in the land and are believing for even greater wonders.

For those who would like to bless us here, we still have shofars for sale or a donation can be made on our website bellow. I can not tell you how much an investment into the kingdom any gift may be to us. As always pray before you give. It should not be out of guilt, burden, or manipulation. I am requesting a 1000 fold return from the Father for everyone who prays for us or is able to give.

Enough of that, on with the assignment at hand. We have come to understand a distinct truth about Israel. Whatever happens here effects the world. Our prayers must be for the peace of Jerusalem! The peace meaning "Messiah" and that the eyes and ears to be open here. This spirit will not come out but by fasting and praying:

Mar 9:29 And he said unto them, **This kind can come forth by nothing, but by prayer and fasting.**

This deaf and dumb spirit has had it's day and is now being destroyed over the precious people of Israel to include the Ishmael.

As I have said earlier, tomorrow is your day, I will be releasing all of you over Israel, your lives will never be the same!

My love to you all

In His eternal service,
Brother William Hodge

Subject: The Release from Israel part two

Shalom Saints of the Most High G-d,

As you know, we traveled to the hills of Ephraim in Samaria on Weds., to pray and release His voice over the valleys and hills from atop Mt.Gerizim.

Apostle Harvey and myself met up with Apostle Annalore of Be'er Sheva at 9 AM and then tried to find a way to get to the Hwy that leads north towards Samaria. We had a hard time finding the road we needed to travel to get to the north and finally I was able to pull over after Annalore said to me; "pull over and we will ask this religious dude how to find Mt Gerizim. I pulled over to ask the man and he told Annalore that he would show us the way. The man got into the car and we drove up the hwy to a town near the road that would take us to where we needed to go.

Annalore then explained in Hebrew what we were going to do on Mt. Gerizim and he became very excited. He then asked Harvey and I for the names of our earthly mothers. Annalore then explained that he was a high priest and wanted to give us a blessing for our journey. After speaking the blessing over us which was very anointed and powerful, I felt the presence of the Holy Spirit bubbling up within me. This was so unexpected but so like the Father to do this. Being given a blessing from the priest of Israel for what was about to take place over the Hills of Ephraim was just awesome.

We then dropped our new friend off at a gas station and Harvey asked if we could pray for him. The High Priest said yes. Harvey asked his name and he told us that his name was; Israel (I am not making this stuff up folks!). We blew the shofars and anointed him with oil. We started to pray for him and the Holy Spirit started to move on him very powerfully. While in the car with us he explained that he was a teacher of the word (Torah), and was taking care of several children from the result of a death in the family. He had to work to try to make ends meet. Harvey and I felt led of the Lord to bless him with 300 shekels.

After we got back in the car again, Annalore with such a big grin on her face started to share the significance of all that just happened. She said that Israel wanted to know if we were Jews and she proclaimed to Israel; "Yes they are!" This made him very happy. Annalore said it was a great honor to have received that blessing and that G-d truly has ordained this day for something very big.

We drove the rest of the way to our destination and made it to Samaria. We did not know how to get to the mountain so we stopped near Ari'el at a gas station to ask. They did not know so we continued on. as we drove I saw a white pillar of smoke

coming off the hills to my left and I felt that we might be close. As we came down a hill I saw in the distance a police jeep. The Lord prompted me to pull over and ask the police officer where Mt Gezirim might be. The police officer spoke excellent English and gave us great directions on how to get to the mountain as well as warnings where not to go. He was very excited about what we were about to do and told us if we had any problems to dial 100 on our cell phone and he would come to our aid. (It gets better ya'll)

We drove through an Arab village on the way up the mountain to a tiny Samaritan village. Next to the village was the top of Mt. Gezirim. I did not know how to get to the top so I took a road leading to the radio towers to my right and found that it did not go where we needed to go but a man came out and asked us in Arabic if we were going to the mountain and Annalore said yes. So he got in our car and we went back a few 100 yards to the base of the mountain that led up to some ruins that were at the top of Mt. Gezirim. Come to find out, this Muslim man was the gatekeeper who had the key to the fence that let us in to the grounds.

We climbed up the stone steps that led to the fenced gate and the Muslim gatekeeper then explained that it would cost 50 shekels a piece. Harvey started to negotiate a better price with the man and the Lord spoke to me very clearly to pay the man. So after I spoke that to the team I paid the man his money which by the way was thirty shekels less than what we would have paid. The gatekeeper then took us in to the ruins and showed us that it was a Byzantine monastery at one time and then a Roman outpost afterwards.

We were not interested in any of that at the time but wanted to make our way to the high place to pray and to sound the shofars over the mountains and the valleys below. The gatekeeper then showed us the place where we were to sound the shofars which was next to the ruins, at first I refused to go there and then I prayed and the Lord said; "Yes!" So we then started to walk over all the ruins and strewn rocks and rubble that lay around us to get to this three-tiered level of land which was so ordained of the Lord.

We had forgotten the camera so Harvey agreed to go back to the car with the gatekeeper to get it while Annalore and I started to pray. I was instructed to give Annalore my shofar for her to pray while I found myself on my knees in the dirt in deep intercession. The Lord had me to breathe out my breath over the valley several times which really moved on me and then I overheard Annalore pray to God; "breathe out on these dry bones oh God" I then knew what Father was doing!

Harvey and the gatekeeper had then returned with the camera and I had Harvey place

on me my Tallit and then over the Tallit my prayer tent which has a Large Golden Cross sewn on the back with flames surrounding the cross all on a sapphire blue cloth. This was to proclaim the fullness of the Gentiles and the true covering "Messiah" over Israel and Ishmael. It was now time to release "you all" over the land, over the land from which the ten tribes had been scattered. To release the breath of G-d into those dry bones spoken of in Ezekiel 37. To proclaim the veil removed from Yeshua to the people of Israel so they may see Him now. To proclaim the ROAR of the Lion of Judah over all of Israel.

As I released you all (who I was honored to carry with me on this journey), a mighty wind came from behind me and I felt His Breath blowing of you off me into the Land. I am almost in tears when I write this to you. (whew) After the wind Harvey and I then let loose with the shofars over and over until we knew it to be finished. Such joy, such power, such fulfillment in knowing it was finished.

When we were able to collect our thoughts, we then took video of the area and then Harvey and I asked if we could pray for the gatekeeper who's name was Muhammad (go figure). He allowed us to do so and Harvey got loose on him and I was in awe of the anointing Harvey had to release the love of the Father for him.

As we were leaving the area I continued to love on Muhammad and we all ended up hugging him and declaring our love for him including Annalore. We picked up a few rocks from the mountain and then got into the car to head back down to the main road.

We ended up stopping for lunch in Ari'el and had an opportunity to pray with the military there. They were very happy to hear what had been done and that we had been given such strategies as to what was about to take place in Israel as they prepare for another war (prayfully very short and without loss of life). Pray America Pray!!!! This effects us all.

We headed back to Jerusalem and sort of got turned around again and ended up a a check point where we were stopped and then told to drive over to the inspection station. This irritated Annalore because she is a citizen here. I drove over to the inspection station and they finally came over and asked us questions, after explaining who we were and what we had just done, they let us go. I was rejoicing over the fact that we got detained and that this was just the enemy trying to hurt us for what the L-rd had just done.

As we got on the road, Annalore told us we could have been arrested because we had a box of tracts in the trunk which were illegal in Israel because of what Morris Cerello had done in Israel mailing Jesus tracts to everyone in Jerusalem without

permission and council with the Messianic Jews already here in the land (Oi Vey). Yet again, protection from the Most High.

We finally made it home and said our farewells to Apostle Annalore who I know we will see again before we leave. She is a true Apostle and powerful prophetic teacher. Her perspective is so refreshing and her gifts are truly edifying, I pray we will be able to have her come to the States to really bless us as the Lord allows.

We spent the evening rejoicing downtown Jerusalem with Brother Adam having soup and bread at a small packed cafe which had a live Jazz band playing. If they only knew what their G-d had done for them this day they too would be rejoicing with singing and dancing!

Shalom oh most blessed of Israel
In His eternal service,
Brother William Hodge

Co-laborers in faith, His Beloved

You might want to set some time a side to read this thoughtfully and in prayer. Bless you all for your obedience, for without your love and prayers none of this would happen. Please as our sister refers to us in this endeavor and assignment of the Lord, she is also accounting you in this work simply because we are one and we are here on your behalf.

In His eternal service,
Brother William Hodge

Subject: Mt. Gerizim

Shalom shalom, my dear fearless brothers.

I got home safe and sound, having made it patiently through that unbelievable traffic. For me this ruins my beloved Jerusalem, getting turned into such a hectic place like Tel Aviv.

I've been digesting the events of yesterday all day, and read up again this morning

during my time with the Lord about that place, to make sure nothing escapes me. So, I will recapitulate here what I see and what the Lord has shown me. It definitely was an assignment from our Abba, our Lord Yeshua and the Holy Spirit.

First of all, that I got to you at 9:00 a.m. despite that unbelievable traffic is nothing short of a miracle, for even though I left 2 hours in advance to make it on time, it did not look like I would make it when I got stuck in that traffic WAY backeven before the onset of the mountain, and it was already nearly 9:00 a.m. I guess time got slowed down ;-)

Then, when we made all those detours the Holy Spirit let me know that we were moving in His perfect timing and that's why I spoke it out loud, confessing and confirming it. And sure enough, we hit perfect timing when we came upon our "religious dude" -LOL - who turned out to be an Aaronic priest, a true Cohen. And he prepared you for your assignment as only the Lord could have ordained it -- with the highest blessing in Israel, the Aaronic high priestly blessing (see Nu 6:22-27). It was not just anyone who usurped to act as a high priest; no, it was a son of Israel, a son of Aaron, and he prepared you with this high priestly blessing, G-d's countenance shining upon you and His Name on you as well, in addition to the authority you have in Yeshua.

And as an addiitonal gift and blessing, he blessed your mothers and the wombs that gave birth to you. Go to Lk 1:42 and consider Elizabeth's words to Miriam. Why would the Lord have put it into this young Cohen's heart to also bless your mother's wombs for having carried and birthed you? It REALLY gave me to think. This is not something that is done every day to perfect strangers, believe me!!!

What I am trying to say here is that you were clothed with ABSOLUTE AUTHORITY, neither angel nor any principality of hell could withstand, oppose or resist you. This is the reason why I got so excited. I understood the absolute authority with which you got clothed before we went to the assignment. Marvellous! Just simply awesome! THEN I knew that I knew that this Gerizim assignment was indeed from the Holy One of Israel!

When we pulled into the 2nd gas station I asked the young man behind the counter for directions and he told me how to go, but said he was not absolutely sure. Well, we drove as he said and then you spotted the police car. And there the Lord provided us with a FRIENDLY police man, a Jew from India speaking fluent English. This in itself was amazing as well as our police men are not necessarily very friendly, but this guy was so helpful, and explained everything in Englishdh. Lordy! Hallelujah!

With Mohammed and that money question I knew immediately that the adversary was trying to get in there with a spirit of strife. NO way! We hadn't come all the way to

worry about a few shekels. And the Lord told you to pay while I got Mohammed's boss to go down in the price – LOL

I don't know if you remember this but I called out 3 times on the top of my lungs - EL-ELOHAI-ISRAEL! You find this written in Gen. 33:20. Jacob had erected an altar of stones on the piece of land he had bought from the sons of Hamor of Shechem for a 100 *qesitah*, and called that altar El-Elohai-Israel - "G-d is the G-D of Israel." I called it out 3 times, and when I was going to do it again the Lord stopped me. This morning He showed me that this has been the main reason (besides the other reasons He made known to you) why He prompted me to go with you on this assignment - to CALL FORTH THIS ALTAR! While invisible it has been "re-activated" and will stand in opposition to every apostasy in the land by our people. Only the Holy One of Israel is Israel's G-d, and no other, and this call will continue to emanate from that place, in the Name of the Father, the Son and the Holy Spirit, the indivisible yet triune G-d.

Then - as you wrote about the Lord having you breath over the Land without me knowing that you were doing this - the Holy Spirit quickened to me the words in Ezekiel 37 and had me pray it into the shofar and call it forth over our people, weeping. The time is shortly at hand that our people, who are back in the Land in the flesh, their bones covered with sinews, muscles and flesh, but their spirits not yet alive in Yeshua, with the Holy Ghost. This is one of the things that was called forth when you blew the shofar, for you blasted out my prayer over the whole of the land.

Remember, the Lord said He would not allow anything to block the sounds and vibrations of the shofars you blew on the top of the Mt. of blessings; He would cause it to travel around the whole globe, for the time for His NEW move has come, that new move of a DOUBLE PORTION: the early and the late rain combined; the manifestations of the Old and the New Covenants COMBINED. WOW! It will be such a powerful upward vortex that will harvest the earth for the Kingdom when our Lord casts His sickle! And He had it set into motion there on the Mount of BLESSINGS! Awesome!

Likewise He set into motion Isa. 35 and 51:3 when you blew the shofars on prayer mountain high above the Aravah. And the Scriptures of Hos. 2, meaning G-d's most wonderful promise contained in it, and Isa. 43, were set in motion from high up on that hill of Vered Jericho. Nor can the Palestinians hold on to Jericho, it has been reclaimed for Benjamin!

Now, I read up again about Mt. Gerizim and about Shechem, and it says in Deut. 27:9-12, that Moses said to the people: "Keep silence and hear, O Israel: THIS DAY you have become the people of the LORD your G-d.." Then Moses charged the

people of who should stand on Mt. Gerizim to bless the people, and who upon Mt. Ebal to curse them.

WE STOOD ON MT. GERIZIM, in a re-inacted fulfillment of a charge Moses had given to the people **FOR THE TIME OF THEIR ENTRANCE INTO THEIR INHERITANCE! THIS VERY DAY** they have become the people of the LORD their G-d in the spiritual realm, even before it has actually manifested! Wow!

The names of those to stand on Mt. Gerizim to bless were Simeon, LEVI, JUDAH, Issachar, Joseph, and BENJAMIN. Due to the high priestly blessing by a Cohen of and in Israel you stood there in proxy of Levi as well as of Benjamin. I am of the tribe of Judah, connected with a very close friend who was shown to be of the tribe of Issachar. And we stood in the double portion of Joseph, for Mt. Gerizim is in Manasseh (see Rev. 7:6, 8), but Shechem is in Ephraim.

What G-d wanted, among other things, to have this charge given way back by His servant Moses carried out one more time, but this time in preparation for His people getting ready to enter into their ETERNAL inheritance. The first one was above all a physical one, now shall come the spiritual, according to that order as Paul declares in 1 Cor. 15:44-46.

AND -- there was NO Mt. Ebal included in the charge this time! NO CURSES! For Yeshua bore all those curses in His body of flesh when he hung from that cross cut from a tree. These curses had never been active in the Gentiles for they had not entered into a blood covenant with G-d to be His people and bear the yoke of Torah. The curses were only active with His covenant people as often and every time they would commit apostasy and turn from Torah. If they would not repent and turn after many warnings, the curses were loosed upon them. The Gentiles would see it but never understand why it were only the Israelites, the Jews that got struck down like that while they weren't. And still Christians keep talking about how they are no longer under the curse when in fact, they never ever have been. Yeshua bore those curses for the sake of the lost sheep of Israel, to free everyone of them who would turn to Him in faith.

Well, G-d had something extraordinary set in motion yesterday: for while most of our people are still blinded to who Israel's Messiah is and their heart is still as stone toward Yeshua, G-d had the blessings **RELEASED WITHOUT THEM MERITING ANY OF IT!** Without them having done anything to deserve it! From pure grace, mercy and compassion, and because of His covenants, oaths and promises, He had you set in motion these blessings and their and our people's salvation **UNCONDITIONALLY!**

This is the FIRST time (apart from Yeshua having become the Lamb of G-d first of all for the lost sheep of the House of Israel) that G-d is getting something done for our people still bound under the OLD Covenant that is based entirely on His unconditional love and grace -- no conditions set up before the promise is fulfilled! While they are still not believing in Yeshua He is treating them already as though they were - because of what He has prepared for them that is still in the future. Talk about calling it TODAY when it is still sometime TOMORROW! G-d just sovereignly stepped over the time barrier yesterday - with those shofar blasts on Mt. Gerizim!

When we were up there He also had me call forth Jacob's SPIRITUAL, ETERNAL INHERITANCE! For as I explained to you, when Jacob returned the FIRST time to the Promised Land - after 20 years "in excile" in Mesopotamia, at his uncle Laban who tricked and tried to rob him every which way possible - at the very entrance into it he was met at Mahanaim by angels of the LORD before Esau would come to wipe him and his whole family out. But Jacob made a big mistake by sending those angels (the word *malachim* stands both for *angels* as well as *messengers*) with instructions to meet Esau and to tell him, "Thus says your SERVANT Jacob... and I have sent to tell my LORD in order that I might find favor in his sight." Gen. 32:1-5 Jacob had but ONE Lord, the G-d of his fathers, and His servant he was and not Esau's!

This was not faith speaking but fear, and that in the sight of G-d's army whom G-d had sent to assist His chosen against Esau. So, we see the angels coming back, having done not more and not less than what Jacob instructed them to do and say. His lack of faith and presence of fear had bound their hands. verse 6

Having demonstrated such weakness (as the nation of Israel is doing again today), Esau's angel Samael saw the opportune moment come to overcome Jacob, take away from him the birthright and inheritance, and get him and all that was his delivered unto annihilation. We know that it was not merely a "man"/"ish" but an angel, a supernatural being of supernatural power from Hosea 12:3-4. Thus he assaulted Jacob in the "blackness" of night, very suddenly and unexpected, when Jacob was left behind alone, his faith at its lowest and fear of Esau at its highest. And had it not been for Jacob's prayer (verses 9-12; see also http://www.ortzion.org/Jacob_wrst3.html) it might have gone much worse for him.

Jacob had to wrestle for his very existence, for that of his posterity, and for the birthright of inheritance. The wrestling was fierce, but he prevailed and as the blackness was beginning to lift, Jacob's strength increased, as G-d was nevertheless with His chosen. Jacob humbly asked the angel of Esau to CONFIRM to him the blessing which he had obtained through trickery (that is why he asked humbly and not in an assertive tone) and the angel, seeing himself unable to overcome Jacob, had no option but to oblige. Then he moreover confirmed, "No longer shall it be said of you

that you are the supplanter of your brother; but henceforth it shall be said of you and you shall be known for it that you ARE the Champion, the Minister, the Chosen of G-d and His HEIR - Isra-el." The translations of this text are not giving the full and true picture of what happened as it is related in Hebrew. The argument used usually that it was an angel of G-d by referencing to Hosea 12:3-4 does not hold, because an angel is a supernatural being of supernatural power, of divine origin because having been created by G-d as immortal spiritual beings. They are STILL angels, though fallen ones (see Rev. 12:7), and still hold their supernatural power as G-d did not divest them of it.

Having been stripped of his power Esau arrived, his heart temporarily changed toward his brother, and instead of annihilating all that was Jacob, Esau was meeting and confronted with ISRA-EL!!! The situation was completely changed. HOWEVER - Jacob made another terrible mistake that has plagued his posterity until this very day - he and all of his family BOWED before the one G-d had rejected, for He said: "Jacob I loved but Esau I hated." Even the numerical number of Esau's name identifies him as an apostate, irreligious person.

Why do I tell you all of this? Because G-d initiated a change yesterday on Mt. Gerizim, and not only sent THREE on the Mt. of blessings who stood clothed in the authority of Yeshua AND in the authority of Israel's high priestly blessing, we had again angels all about us, an army of G-d, who were sent to carry out for Jacob what he missed having them do the first time around.

For Jacob - the unregenerated Jew - has returned to the Promised Land after 20 centuries of exile. But again, before he could do so, he first had to wrestle in the blackest night of his whole existence, in the time of his final punishment, when again Samael, the angel of Esau, and all the legions of hell at his disposal attempted to make a way for the total annihilation of Jacob in the night of all nights -- the Nazi Holocaust.

Esau is being equated in Jewish writings and understanding with Gentile Christianity, foremost Rome, because they have been trying for the last 1800 years or so to wrest from Jacob his birthright and inheritance and usurp it for themselves. But he prevailed, though greatly injured just as Samael had injured Jacob at the spot of his weakness (for he had 2 sisters for wives and 2 concubines; sexual desire and lust has been a weakness of our people until this day), and G-d raised up from the gas chambers, death camps and ovens a new nation called -- ISRA-EL!! In weakness *Jacob* returned to the Promised Land but entered into it as *Israel* -- first comes the physical, THEN the spiritual.

However, Israel is STILL bowing to Esau, and Amalek (Esau's grandson) is trying to

carry out what his grandfather was unable to accomplish - to annihilate him. And now even the posterity of Ishmael has joined up in this purpose.

BUT -- G-d sent another "camp of G-d" ahead of Israel before he shall enter into the Promised Land of his eternal inheritance. For we represented yesterday another "Mahanaim," and as the shofars called out you saw many angels which I did not see this time but I knew they were there because when disciples of Yeshua, servants of the Almighty, VOICE the Word of G-d by the Spirit of G-d and in the authority delegated to us by Yeshua, they are always there in order to go forth and carry out this Word. Furthermore, they understand the language of the shofar and knew what they were saying when you blew them.

You also said something of which I am not sure that you had full revelation of what you were saying. You called me a "mother in Israel" and a "womb" that would be "birthing". Since you have not read the first book the Lord gave me to write and don't know therefore what I recorded of the things Abba said to me, I was struck with amazement at your words. Only Abba could have given you to say these things while I don't think you have been given yet the full implication of them. In the event the Lord should show you this, THEN I will also tell you what He showed me about you two. Until then I shall keep it to myself because I need first this confirmation which only G-d can give and no man.

Regarding Shechem, it has always been filled with evil and with death. I read it all up again today, and I am amazed how this town is still filled with evil, with murder, terror, lawlessness and death. Israel did not live INSIDE Shechem but was encamped in front of it. And that is what we see also today, but that spirit of lawlessness and evil has been trying for decades now to infiltrate Israel. We put an end to it yesterday, and it will eventually be defeated and the curses of G-d will come upon this people in accordance with His Word.

Now to Hebron: the Lord showed me that you are to blow the shofars 3 times, each time in a different place.

1>from inside the Jewish enclave

2>from inside the Jewish part of the cave of Machpelah.

3>At the burial site of the Jewish doctor (ask one of the Jews or a soldier to take you up to that burial place, to sound there the shofars as well.) who killed 29 (the # 29 is the combination of # 20, the # of *expectation*, and 9, the # of *judgment*) of "Amalekite" Palestinians in their section of the cave while they were praying to Allah, underneath the floor upon which they were kneeling having weapons stashed away ready for use to fall upon the Jews when they pray in their section of the cave.

Israel bought land in front of Shechem, Abraham had bought land in Hebron upon which the cave of Machpelah stands; in Beer-Sheva he dug for wells and there all 3

patriarchs and matriarchs had been encamped, where also G-d appeared to all 3 of them. And Jericho is the place where the children of Israel entered the land coming from Egypt. At the first time the walls came down from the sound of the trumpets and the shouts of the people. This time Jericho will be brought down and rendered powerless by the blasts of the shofar you sounded there above it and by the Word of G-d you proclaimed. Then G-d will put there a door of hope into that valley of troubling, and fulfill His most wonderful promise to His people.

With those specific blasts both at Ir Ovot and at Vered Jericho you have moreover released the coming about of the northern and the southern gates of which I told you. At Ir Ovot will be built a "Messianic" Kibbutz Inn the name of which will be "The Holy Way"; and at Vered Jericho will be built another one, and it will be called "Door of Hope." The southern gate will be in the place where Israel rested after the troubling experience with the serpents and they got saved from the poisonous sting by the brazen serpent. We know Who fulfilled this "physical" event in the spiritual. Now has been released their "resting" from the poisonous sting of the Serpent caused by their lack of faith, unfaithfulness and apostasy, and they will enter onto the "holy way" where there is no more stumbling and where no serpent shall ever again sting them.

And the "Door of Hope" will open for them in that valley of troubling that they may find to the Hope of Israel, Yeshua, and enter into their promised eternal inheritance and "marriage" with the Holy One of Israel.

G-d is initiating a spiritual move at these strategic points that will eventually spread across the whole earth, just as the sounds and vibrations of the calls of the shofar will spread across the whole globe.

Finally, as I said already, when you sound the shofars in the gates, their sounds and vibrations will enter those stones and will be retained by them, effecting all the people who will pass through those gates, both for good and for evil, for salvation or for judgment, according to what is in the heart of each of them.

G-d is preparing for His people's salvation and nothing can and will stop it, regardless of Esau, Amalek and Ishmael. Indeed, G-d will NOT deal with our people as He did formerly, but for the sake of His holiness and holy Name He will save our people and lead them to enter into their spiritual inheritance.

Finally, you expressed the wish that you could somehow make a way for me to come to your people in Detroit. This morning the Lord reminded me that I was going to the States, to Texas, and that it would be a small thing to add it to my itinerary. I looked up the schedule, my departure from Dallas back home being set for Sunday, Sept. 5th.

Instead of flying home to Israel I could fly to Detroit and minister that evening at your

congregation. Wednesday the 8th is the evening, the onset of Rosh Hashanah, Thursday is Rosh Hashanah and Friday the 2nd day of Rosh Hashanah, on which I would leave for home, arriving in Israel on Saturday, yom Shabbat, with no problem for my husband to pick me up.

I will inquire of my travel agent what the additional cost would be for flying from Dallas to Detroit and from there back home. I am sure it will be only a fraction of the cost it would otherwise cost you if you were to fly me all the way from Israel to Detroit and back.

Since the Lord reminded me of that this morning, it would seem to me that is what He wants me to do. I was several times on the verge of cancelling my trip altogether because nothing seemed to be working out as needed, yet the Lord kept impressing on me that I should not cancel my trip to the States. So I wondered what He might have prepared for me other than what I knew I was going to do. Looks like it might be Detroit? :-)

Well, I better close now this long epistle. But I know you wanted to know what has crystallized for me and what the Lord gave me to understand of all of this. That's it so far.

Blessings to you, my bold and courageous brothers of great faith and much love. You are accomplishing great things but only those who were near you or witnessed your blowing of the shofar know about it.

Oh, wait a minute, I almost forgot to mention this: our little Moslem Arab "guard of the Mt. of blessings," Mohammed, was there on divine appointment, although of course he does not know this. The sounds and vibrations of the shofars entered him and will keep on working in him and performing a transformation to which Harvey gave direction and additional impartation with his prayer and the anointing from the Holy Spirit. We need to keep this young man in our prayers for G-d has called him to serve Him among the Moslems. Again, a seemingly "insignificant" young man - insignificant in the eyes of man - was being set apart and called by G-d yesterday to serve Him in the Gospel among Moslems. Because of the shofar blasts blown by two very bold, fearless and courageous men of G-d, he will become a very bold, fearless and courageous man of G-d as well, though he won't know until much later what got that started in him and what turned his life around.

Glory hallelujah! Our G-D is SOOOOOOOO amazing!

Love in Yeshua,
Annelore

Subject: The assignment: North Israel, Sea of Galilee, and Megiddo

Shalom Precious Saints of Yeshua,

I have now been able to collect my thoughts and debrief with the Holy Spirit everything that has transpired these last few days. I have been somewhat exhausted from all the travel and pouring out so I needed to rest Saturday evening.

We had a very powerful time Thursday evening with some friends of our roommate Adam. The Holy Spirit had me read their mail and minister to their callings as Harvey did what he does best and took them up on the lap of the Father. We read mostly that evening from the Hebrew the word of God. A non-believer read to us in Hebrew the word and we watched as the Holy Spirit started to show her from the Hebrew that there was no atonement for sin except blood. We watched as this young lady started to get convicted from the Hebrew that God was going to have to give His blood for the final atonement of sin once and for all. (This Saturday morning this young lady went with us to Adam's congregation and sat through the service. It was so awesome to see a young Jewish women have the blinders taken off their eyes to see the truth of Yeshua Ha Messiach).

Friday morning, Apostle Harvey and I made our way from Jerusalem to Mt. Hermon. I felt in my spirit that we needed to go quickly to the north and then after conferring with the prophets in the U.S. to "MOVE" we did. I drove along the east of Israel up Hwy 90 which took us up by Lake Galilee and then up to the most northern point of Israel where Mt. Hermon was. On the way, we stopped and picked up a soldier with his M-16 that was traveling that way and had a wonderful time answering his questions about our mission and witnessing the true love of Abba Father with him. Once again, we have had great favor with the military. He was overjoyed by our love for him and all of Israel. After dropping him off, we continued on to Mt. Herman.

We finally arrived to the base of the mountain and filled up with gas. We had questions as to how to get to the top of the mountain and the owner of the gas station asked us to follow him and he would show us how to get there. We followed him through this large city built out of the mountain and then to a gated road that would now lead us up to the top of Mt. Herman.

As we drove up the long ever inclining road I looked up into the sky ahead of us and saw an eagle flying overhead. This was just the Father showing off and assuring us of the assignment to the top of Mt. Hermon. We continued a little further taking in all the beauty of the mountain and the valleys below. I was overwhelmed by the fact that we were on the mountain that supplies water to the Jordan River. So much has been

written in scriptures of these mountains and the strategic location of these mountains to the north of Israel not only for its protection but for its sustenance.

We finally arrived at a ski lodge which was near the top and it had chair lifts that take you to the top of Mt. Hermon. It was now 3 PM and the chair lift was closing for the day. I felt as though we had disobeyed Father and now we were going to have to walk to the top. Harvey talked with the chair lift operator and we were given favor with him and he allowed us to take the chair lift to the top of the mountain for a few minutes and no longer. I can not explain to you what was going on in brother Harvey as we sat down in these tiny chair lifts with no safety mechanisms to keep us in the chair as we were lifted to the top of Mt. Hermon, about a half a mile up. I tried to get Harvey to look around but that was just not going to happen, so I took video of the ride up for him later.

We reached the top of the mountain and Harvey saw a vehicle parked next to the ski lodge and he started to pray that the operator there at the top would drive us back down. Harvey has great favor with Father and granted his prayer. The operator was about to close after a family of bikers reached the top to take their bikes back down the trails from the top of Mt. Hermon (No Way, Jose!)

After collecting our thoughts, we prayed for direction as to where we were to sound His voice and we ended up at a little memorial dedicated to the brave soldiers of the 6 day war that had to retake Mt. Hermon from the Syrians. The view here is breathtaking and very somber. After praying, I sounded the shofar over Mt. Hermon and towards the surrounding borders that rest against Syria to the North East and Lebanon to the North West. I continued until I knew it was finished. There was a military post just ahead of us and I could see the soldiers at the gate. They would give me a big thumbs up as I sounded the shofar and I knew this was for them and their protection with the upcoming trouble in the days ahead.

After picking up some rocks from a top the mountain, we waited until the operator had locked up so we could ride down this portion of the mountain to the ski lodge where we had parked our car.

I sat up front with the driver (big mistake). The chair lift operator must fly airplanes or something, he drove so close to the edge of the road on the right-hand side that all it would have to take was a bump and we would be doing just that, flying! Harvey was just fine in the back only to complain about trying to get the window opened for some air. I rolled my window down at first at the top but rolled it back up again after we started to descend (I wished we had taken the slow chair lift back down).

We finally made it to the ski resort and was welcomed by soldiers and other guest. They asked for us to sound the shofars and we obliged with no problem, for me it was a victory blast that I was still in one piece.

We rejoiced in the successful mission and now started to make our way back down the hwy to the Sea of Galilee on our way to Megiddo.

We made our way back to the Sea of Galilee and found our trip there to be once again, breathtaking. We had reached the north of the Sea and saw signs to the Mt. of Beatitudes. We stopped and sounded the shofars many times over this area and I felt the mighty presence of the Lord here in this spot. I was now directed by the Holy Spirit to drive toward Tiberius which rests on the west side of the Sea of Galilee. As we got close to the shoreline, I saw a spot to get off the road so that we could take the shofars and sound them over the waters. As we parked and started to walk toward the water, I was overtaken by the Holy Spirit and knew that I was walking where our Savior walked. This was a great awakening for me. we sounded the shofars over the Sea and many who were swimming and fishing there responded with joy. As I turned to head back to the car, I dropped down to my knee and just prayed and rested in Yeshua's arms. Harvey was also on his knees. I did not want to leave yet we were not finished today and with great urgency we started to make our way south west toward the Jezreel Valley and Megiddo.

Israel is not very good at road signs and Harvey once again asked for directions from a tour bus driver who was very kind in helping us to get to the right road out of Tiberius to Megiddo. We then having our bearings, headed to Megiddo.

We arrived in Megiddo just as the sun was setting and found that the Megiddo National Park was closed to us. We looked down the road and found that the road ascended somewhat and that we might be able to get to high ground from there. We had to drive back through some construction area and found ourselves in the middle of a cow pasture. We walked to the middle of this cow pasture making sure to miss the land mines left by our bovine friends to sound the shofars seven times to scatter the enemy from a pre-emptive strike against Israel, drawing us all into another world war. After we finished, we got in the car and we drove back to the road only to be prompted by the Holy Spirit to walk out into the valley or field directly ahead of us and sound the shofars again. After we parked the car at the entrance of the National Park, we walked across the street and walked out into the newly harvested wheat field. I looked down at the ground and saw here and there some heads of wheat that did not make it from the field to be harvested. I pondered over the fact that this valley has seen it's fair share of battle and spilt blood over the centuries. I also

pondered the fact that; if the does not fall to the ground and die, it will never bring forth fruit.

Harvey and I waited on the Lord for the spot to sound the shofars. The Holy Spirit directed Harvey to tell me to sound the shofar seven times toward the north of the valley against the enemy. After we sounded the shofar, the Holy Spirit then prompted me to lower the shofar pointing it down at my feet and to the ground. I then sounded the shofar many times there and could actually feel the earth tremble beneath me. The blood in the land has been crying out and now was answered. The very earth will not let the enemy of our souls step on this ground until the appointed time.

After completing our assignment we started to prepare ourselves for the long journey back to Jerusalem. We found a route on the map which would take us directly south into Jerusalem which is Hwy 60. We have been trying to find it here in Jerusalem to take north but can not find it here even though the map says it is here. We found it while on our way to Megiddo and determined to take it back to our home base. We later found out why you don't take Hwy 60 to Jerusalem as we found ourselves in front of a huge gate that closed off an entire city in which 60 went through. This was another Jewish settlement and it was closed after dark to any traffic. We then tried to find a detour and ended up in a large Muslim community that was off the hwy somewhat. We knew we had made a wrong turn and decided to ask a man and his son how to get to Jerusalem from there. He did not speak English but drew us a map out of the area and to the nearby highways we need to get to Tel Aviv (all roads lead to Tel Aviv, private joke here). I nodded my head several times as if I understood the man and then we got out of there and made it back to an intersection that gave us directions back towards the east of Israel and then to Hwy 90 toward the Dead Sea and then to Jerusalem.

The rest of the trip to Jerusalem was without event until I took a wrong turn and ended up coming down the back side of the Old City off the Mount of Olives near the East Gate. I have learned to drive aggressively and defensively in this city and this in itself is a miracle.

Thank you for you continued prayers and support. We head south to Hebron and Be'er Sheva this next Saturday to spend Shabbot with Apostle Annalores' family at their request. We will have a great time prophetically and purposefully with these precious and ordained ministers of Yeshua.

I will be seeking time to go and pray this week so that I can keep focused on this most ordained assignment from Abba. If you have missed any of these emails of this trip

you can simply go to our website and read them from the front page. Our administrator is putting them there as fast as she can (bless you Sally!).

My love to you all in the name above all names; Yeshua Ha Messiach, Christ Jesus of Nazareth.

In His eternal service,
Brother William Hodge

Subject: In the Belly of the beast

Shalom Saints of the Most High,

Monday was a day I will never forget. Harvey and I have been meeting many students from the Hebrew University who are here studying Hebrew for various reasons to include Bible translators or to become teachers. Many of the students are believers from the States and have been bannng together for worship and for prayer. Harvey and I have been so blessed to pour out on some of these precious End Timers and I can not wait to see the fruit from these 100 percenters.

One of our Guest House Host; Adam is one of these 100 percenters and he has introduced us to some very precious and anointed young ministers here in Israel. Adam has been so instrumental in hosting gatherings here and just recently a worship service here in the apartment.

Adam spoke with me early Monday morning about praying for a young intercessor who had been under great attack from what appeared to be a python spirit (religious spirit), Adam and Ben had prayed for her the night before and when they found out it was a snake spirit they reasoned to call on me in the morning to assist in prayer with Harvey and Sister Tali (another Christian student).

After waiting awhile for Nancy to make her way to us, we finally met and then after introductions we left to head up the hill directly to the back of our apartment which overlooks Mt. Scopus and the South and South East of Jerusalem. Mt. Scopus is where the Hebrew University is located and is a humanistic college. We walked up a hill and crossed over a broken down fence which led to another hill directly overlooking the university. We prayed, declared and decreed against the religious and anti-Christ spirit over the university and then sounded the shofars. As we sounded the shofars the Lord directed me to have our brother Adam pray in Hebrew over the land against these spirits and as he would stop I sounded the shofar. As we finished our

prayers, we headed back down the hill and noticed on the ground in two places broken shards of clay each piece of the shards had a number written on them and were in a pile on the path up the hill. We suspected witchcraft and blew the shofar over them and then scattered them.

As we collected our thoughts I knew I needed to get to the Damascus gate and to the Rockefeller Museum which was across from the Damascus Gate. Our sister Nancy started to share with me about the things she has been finding in her research about the Rockefellers and the connection to the Free Mason or the Templar's. She told me that this last Purim when everyone dresses up the Knight Templars went down into Solomon's Mine which is connected somehow to the Rockefeller Museum and had ceremonies under the North Gate area (I will let you all pray about that significance). I shared with Nancy all that the Lord had spoken to me and how I needed to release myself and my family from this curse. We are cousins of the Rockefellers on my father's side. She was excited and shared even more revelations about the ties to the anti-christ through these Templar's in the land. She has seen the tunnels and works in that dept. on campus. WOW!

It was getting close to 5 PM and I started to prepare myself to go to the Damascus Gate and also Via Delarosa. I knew I wasn't to go alone and I asked the Father about this. He said that Adam would go with me. I went to Adam and asked him how to get down to the gate and he asked me if I wanted to show him. I just love the Lord!!!!!! We immediately left for the Damascus Gate and the Rockefeller Museum. After paying for parking we walked over to the Museum and we found it to be closed. The Guard however was excited that we had shofars and we most gladly sounded them over the Museum at his request (as I have said before; you just can't make this stuff up!). After we finished and shook the guard's hand we headed over to the North Wall near the Damascus Gate. Upon nearing the Gate we came upon Solomon's Mines. This mine went deep underneath the walls of Jerusalem. We were there right at closing and after paying the guard who gave us only ten minutes, we started our descent into what we would later call the Belly of the Beast. I videoed the entire descent. We finally made it to the lowest chambers of the mine and I was reminded of the word spoken to Ezekiel Chapter 8 verses 6 on. We prayed, declared, and decreed those things the Lord had laid on both our hearts for Israel and for Jerusalem. We bound and cast out the Basilisk or strongman in that liar and then sounded the shofars many times from within the belly of Jerusalem (I will let you take a breath here).....O.K. we are back!.....After we felt the release from the Lord, we worked our way back to the top of the mine and was welcomed with a big smile on the Guard's face as he had heard the voice of the shofar echo through the chambers of the mine back towards him. After exchanging handshakes and blessings we then

proceeded to the Damascus Gate to finish some unfinished business within the wall of the Old City.

Adam who speaks Hebrew was such a great blessing and we worked our way around the toward Via Delarosa where I had unfinished business. We knew some very wicked things had been covered in that area and after sounding the shofar several times even while mass was being done, we felt the Lord give us a great victory of even more snakes. We spent a couple of hours working our way all over the Old City and finally ended up near the Western Wall again. Adam asked me if I wanted to go up on the wall and sound the shofar? I could not believe my ears, I was in awe that you could get up on the wall. After climbing several stairs Adam and I stood on top of the wall that looks over the Dome of the Rock and all of the Mount of Olives. Needless to say, this was a defining moment for me as a watchman on the wall (Ezekiel 33:3). After collecting my thoughts and composure, I knew I needed to go to the Western Wall one more time to pray and also to put Sister Marie Walkers prayer request in the wall for her and her family. It was not as busy as it was before so I felt freer to sound the shofar with everything I had left in me. WOW!!!! I then went forward and laid my forehead against the wall and prayed for the RESTORATION of my entire family (Thank you Apostle Rose Mary). Not really understanding all the prophecies that you all have been sending to me until this moment. I will let you all go for now and will continue tomorrow (Thursday) for the powerful things that have happened since Monday.

The assignment is not over and Harvey and I are meeting the most incredible Spirit filled people here in the land to include two more hidden Apostles!!!! More on that tomorrow.

Shalom and my love to you all

In His eternal service,
Brother William Hodge

Subject: Mt. Scopus taken for the King

Greetings again from the Holy City,

I have been so overwhelmed with what Abba has been having us do this week that I am now able to finally respond to you about everything from Tuesday till today Thursday.

Harvey and I have been so blessed to have met so many born again believers to include some very anointed ministers who desire to have home churches here in Jerusalem. We had a powerful worship service here at our apartment with another Apostle and the young adults here with us. After worship, Harvey and I were invited to a powerful 24/7 ministry that worships here in Jerusalem. I was so amazed at the presence of the Lord in this building and they even allowed me to play the Bongo with Apostle Dror who invited us to be there during his 4 hour watch Tuesday.

As I was in worship and in prayer the Lord spoke to me about another shofar assignment which by the way was confirmed three times immediately within two hours of receiving the message by three different individuals to include Apostle Harvey. I am not really allowed to share with you yet the details, but it deals with a very nasty principality that has to be dealt with.

Weds. was a special day, we had an awesome time speaking and praying with Apostle Dror who is Jewish and has such a heart for worship and restoration. We had an incredible time with him sharing notes from the Lord and imparting into each other for the work ahead. We said our goodbyes and then blessed him with some funds to travel back home.

Adam then took Harvey and I up to the Hebrew University on Mt. Scopus and had lunch in the cafeteria where not to long ago a suicide bomber killed 11 student eating lunch. As we entered the cafeteria on the campus we were asked to sound the shofars in the cafeteria, this was very special and very significant due to the blood shed on that ground.

Mt. Scopus where the University rest is directly north of the Old City and has always been the mountain that anyone who came to conquer Jerusalem would have to take before taking the city.

After our meal we were led by the Lord to sound the shofars over the cafeteria and the Security Tower. As I was in prayer, Harvey nudged me and told me to look up towards the Security Tower. I looked up and saw two Falcons flying around the tower, I knew in my spirit that this was very important and that we had just took Mt. Scopus for Yeshua!!!! After sounding the shofars we then proceeded to all areas surrounding the campus to include a tunnel that led to a beautiful little garden in the middle of campus. the tunnel had streams of water on both sides of the path as well as pictures of tree roots going down the inside tunnel walls towards the water. I sounded the shofar up into the tunnel before we went up it and then back down as we stood in the womb of this park. We felt in the Spirit that the womb between America and Israel was now repaired.

The garden was shaped like the womb of a woman and as all three of us sat on the bench looking down the tunnel I recognized how huge this part of our assignment was. The womb was surrounded with vines and fig trees and of every indigenous plant known to Israel. Sounding His Voice up the tunnel and then to sound it in the center of little garden and then back down the tunnel is now being revealed to me as to what the Lord had done that day. A big baby is going to be born on campus and it is going to take Jerusalem for the King! (I must stop here and let you ask the Father of this significance not only for this University but for all Universities around the world. Brother Rick W. will be encouraged I'm sure)

After our visit in the garden we then continued to sound His Voice over other areas of campus especially those places where believing students gathered to pray for the students and professors of the Hebrew University. Adam just reminded me of how many countries are represented on that campus. He noted that he had one class that had students from seven different countries in it.

It was also noted that Prime Minister Netanyahu was in the U.S. on Weds., and several U.S. Senators were here in the Holy Land as well. Senator Lieberman and others were walking around in the Holy City earlier Weds. morning and some of the students who were here with us got to take a picture with him. I was reminded of the urgency of what is going on globally and how Israel is preparing for a skirmish if we do not stay in prayer for Israel.

As we finished on campus the Lord then prompted me to now go to the Supreme Court Building here in Israel and sound His Voice over that while our delegates from the U.S. are still here. Brother Adam directed us to the Supreme Court and Harvey and I sounded the shofars. Wow, what a day!!!!

Thursday arrived and we prepared ourselves to take Brother Ben to Tel Aviv to fly home for a break and then back to the Middle East for further studies. Brother Ben is a powerful yet gentle spirit that has such great anointing on his life not only as a teacher but as a powerful seer. This was all sort of new to him as we spoke into his life yet he hung on every word that came forth out of Harvey and myself. We dropped Brother Ben off at Ben Gurion International Airport and then proceeded to the City of Jaffa for another assignment for Yeshua!

Brother Adam navigated for me as we made our way through all the traffic and ended up in the city that Jonah tried to escape the Lord from and Apostle Peter received a vision from the Lord to minister to the Gentiles. We made our way to the Mediterranean Sea and sounded the shofars against any possible invasions or attacks

from this Port. A local shop owner came over to us and she asked what we were doing. We shared with her what we were doing after, she asked us to come and sound the shofar in her new business that wasn't doing well. Her name was; "Elior" which means, "Light of God." Harvey then asked if we could pray for her and she let us do so. She was so happy afterwards.

We found parking downtown and then found a restaurant to have a meal before we ventured forth into Jaffa. After our meal, we walked back down to the sea and started to sound the shofar again over any place we were led to of the Lord. As we sounded the shofars many of the people there kept asking us to sound it for them. This went on and on. It was a hot day and we had to climb many steps and go up several hills around the city. I was troubled in my spirit many a time by the evil spirits hiding behind many things to include some of the businesses. We stayed the course and finished the afternoon a little worn and warm.

Our drive back to Jerusalem was uneventful until we got close to the city. Many of the streets were shut down and we were rerouted to the south of Jerusalem which was very mountainous and very beautiful. We later noted that either the Prime Minister was arriving or our Senators were on the move around the city.

Harvey, Adam, and I enjoyed a great meal and then went to sleep around Mid-night. Praise Yeshua for another purposeful day of serving Him.

I will have probably one more "novel" email for you all to read after this one before we make the journey home. We have a very busy schedule for this weekend to include Hebron and Be'er Sheva. We will be taking Brother Adam to the airport on Sunday and then worshipping with Apostle Dror and the team on Monday before we head to the airport early Tuesday morning.

Our love to you all as well as His perfect shalom.

In His eternal service,
Brother William Hodge
